**AGENDA REPORT**

AGENDA DATE 04/25/00

AGENDA ITEM 2

WORK SESSION ITEM \_\_\_\_\_

**TO:** Mayor and City Council

**FROM:** Director of Public Works

**SUBJECT:** Clawiter Road Corridor Project Design: Authorization for Execution of an Agreement for Professional Services

**RECOMMENDATION:**

It is recommended that the City Council approve the attached resolution that authorizes the City Manager to execute a professional services agreement with Kimley-Horn & Associates, Inc., to prepare plans, specifications, and estimate for the Clawiter Road Corridor Project in an amount not to exceed \$145,000.

**BACKGROUND:**

The project will install three new traffic signals along Clawiter Road at the intersections of National Avenue, American Avenue, and West Street and interconnect these three new traffic signals with the existing traffic signals located between West Winton Avenue and the planned Breakwater Avenue traffic signal adjacent to State Highway 92. These traffic signals and interconnect will improve traffic flow through the Clawiter Corridor. Sidewalks are being provided along most of Clawiter Road between West Winton Avenue to Diablo Avenue where, generally, none exist (see Exhibit A). Construction of these sidewalks will improve pedestrian access, safety, and circulation.

Request for Proposals were also mailed to five local transportation-engineering firms that have transportation engineering experience. Kimley-Horn & Associates, Inc., was the sole firm who submitted a proposal. Other firms indicated that they have previous commitments, which is indicative of the amount of traffic engineering work currently being solicited. Since this is a federally funded project, there are no Disadvantage Business Enterprise (DBE) goals established for professional services. However, Kimley-Horn Associates is utilizing a DBE sub-consultant for approximately five-percent of the work. Kimley-Horn & Associates, Inc. is well qualified based on their experience with similar projects, including their current design work on the City's Clawiter Road/Breakwater Avenue traffic signal project. Staff negotiated a contract not-to-exceed price of \$145,000, which is reasonable considering the scope of services.

**PROJECT COSTS:**

The preliminary costs for the project are as follows:

Design and Administration	\$175,000
Construction Contract	955,000
Construction Inspection & Survey	<u>81,000</u>
TOTAL	\$ 1,211,000

**FUNDING:**

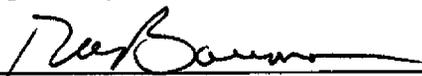

A total of \$1,211,000 is programmed for this project in the Street System Improvements Fund of the proposed 2000/01 Capital Improvement Program. The City will be reimbursed 100 percent of the project costs from State CMAQ and Federal STP funds.

**SCHEDULE:**

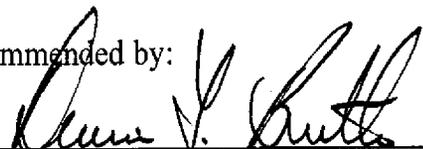

The following schedule has been developed for this project:

Begin Design	June 2000
Advertise for Bids	June 2001
Award Construction Contract	September 2001
Begin Construction	October 2001
End Construction	May 2002
