Subject: Item #3 on Tonight's Agenda: Airport Ground Lease

Please be advised that I will be asking Mayor and Council to allow me to remove this item from tonight's agenda and reschedule it for both January 17 (Closed Session) and January 24 (Action Item). It is a complex land lease arrangement, which the CAC has spent considerable time reviewing and which it is recommending to Council. However, the full Council has not had a chance to hear a presentation on the details of the negotiations as is our practice with any complex real property negotiation. When it comes back on January 24 to full Council, it will be as a Legislative item with opportunity for all parties to speak before Council.

Therefore, I am asking that the matter be removed tonight and rescheduled as noted above. The party with whom staff has been negotiating and all other known interested parties have been advised of my intent. I apologize for any inconvenience this may cause Mayor and Council, as well as the affected and interested parties, but believe this course of action will assure that the matter is properly vetted for both Mayor and Council and the public.
