The presentation is designed to update the City Council on the work of the Department of Community and Economic Development through a review of the budget, staffing and workload of the department for the past year. The Department is responsible for a wide range of programs and activities that have significant impact on the physical and economic health and welfare of Hayward and its citizens. These include planning for future growth, assuring that proposed growth and change meets the standards expected by our residents in terms of safety and quality, encouraging job and business expansion, revitalizing physically deteriorated areas, and caring for the health and welfare of those citizens who are in greatest need. Our mission is to manage growth and development in order to assure the economic health of the community and a high quality of life for its residents.
